Education

University of California, Santa Cruz

Expected - June 2025

Bachelor of Science in Computer Science

Santa Cruz, CA

GPA: 3.96/4.0

Relevant Coursework: Data Structures & Algorithms, (CodePath) Intro to Web Development

Extracurriculars: UCSC GDSC, UCSC ACM

Skills

Languages: JavaScript, Python, HTML, CSS

Frameworks/Libraries: React, Node.js, Express, Tailwind, Flask

Databases: MongoDB, Firebase

Developer Tools: Git, GitHub

Experience

Accelerate Program Participant - Software Track

June 2024 – July 2024

IBM

Remote

- Improved skills in a 8-week program which included front-end, UX design and development, back-end, Rest APIs, generative AI, and Cloud Native Development, and was **1** of **175** chosen out of **10,000+** applicants
- Demonstrated proficiency in JavaScript, React, Node.js through developing hands-on projects and mentorship with IBM developers and industry leaders

Full Stack Software Engineer Intern

April 2024 – June 2024

Innovate Mobile

Remote

- Managed the migration of **5,000+** data entries from SQLite to MongoDB, enhancing scalability and query performance by **50%**
- Enhanced data processing automation by **10s** through email scraping and user data integration using Python
- Maintained unit tests for the existing codebase, increasing code coverage to **70%** and reducing bugs by **40%**

Projects

SelfTour - Itinerary App | *TypeScript, React, Firebase, Firestore, Tailwind*

- Achieved a **30s** reduction in itinerary planning time for users in congested cities with a streamlined user experience
- Increased application responsiveness by **20%** compared to previous iterations by developing frontend and backend functionalities using React and Node.js
- Improved overall application performance by integrating Firebase for data management and TypeScript for data validation

SmokeScreen - Blocker for Content | *JavaScript, Chrome Storage API*

ACM Hacks x Grace Hacks - Most Ambitious Award

- Pioneered the development of a Google Chrome extension that blocks content with specified words by **30%** through streamlining the workflow with agile methodologies
- Strengthened the functionality of the extension by debugging **50+** edge cases to ensure specified content is blocked

SpotYt - Spotify to YouTube Playlist Converter | *Python, YouTube Music API, Exportify*

- Engineered a Python tool to automate playlist conversion, resulting in **20** playlists being converted with a **90%** success rate
- Streamlined playlist conversion through reducing song addition times on average by **40%**, and benchmarked this for various album sizes ranging from **100-1000** songs
- Enforced CRUD functionalities to improve the user experience by implementing robust data specification checks that improved processing times by **30s**
